

## R. E. Yrausquin & Sons support local foundations with holiday donations

The holiday season is the time when successful local businesses make it a practice to remember those less fortunate, and the car dealership of R.E. Yrausquin & Sons made their annual holiday donations on Wednesday, December 20. R.E. Yrausquin & Sons is the dealership in Aruba for Ford and Mitsubishi automobiles, and they report an excellent year.

The foundations to benefit from their generosity were Centro Kibrahacha for the Elderly, the Youth Hotline, SAMBA (a rehab center for substance abuse), and the Clown Doctors, a group that visits hospitals bringing fun and games to the children. Additionally receiving support from R. E. Yrausquin & Sons were the Imeldahof Children's Shelter (for children removed from troubled homes) and the "fundacion Pa Hende Muhe Den Dificultad, (battered women.)

Director of R. E. Yrausquin & Sons, Juan David Yrausquin, performed the pleasant task of awarding the checks to the representatives of the various foundations at the car dealership on L.G. Smith Boulevard in Oranjestad. Of the many foundations in Aruba that assist various groups, he reported "It was not an easy decision to single out these five foundations, as there are so many that do important work and need support, but we felt they represented a good sampling of many different segments of the community. By donated to these organizations to assist them in continuing their important work, we feel we help the entire island."

Juan David also took the opportunity of the presentations to extend to all the island best wishes for a happy holiday season and a prosperous new year.
